About this form:

- Under the Home Information Pack (No. 2) Regulations 2007, you must include an index which lists all the documents included in your Home Information Pack.
- You may use this form as an index. Required documents need to be included in all cases where relevant: authorised documents do not. Please seek professional advice if you are unsure about what to include in your Home Information Pack.
- All the documents in your Home Information Pack must be listed in the index, whether or not they are required or authorised.
- Where a document required by the Regulations is unavailable or unobtainable, the index should indicate that a required document is missing, which document it is and the reason why.
- Where the document exists and can be obtained, the index should indicate the steps being taken to obtain it and the date by which you expect to obtain the document, updating this date if it changes. It should also indicate the reason for a delay or any likely delay.
- The index to your Home Information Pack should be updated whenever the pack or a pack document is added or removed.
- Someone can complete this form on behalf of a seller.
- The Regulations tell you what documents are required to go in the Home Information Pack, and which documents are authorised to be included. Documents that are neither required or authorised should not be included in the Pack and advertising material should not be included. Guidance on the Regulations is available at www.homeinformationpacks.gov.uk

PART 1 – General – Required Documents

Please look at each document listed in column 1 and then complete the relevant entry in either column 2 or column 3

Column 1 Home Information Pack document	Column 2 Included <input checked="" type="checkbox"/> date on document and any further information	Column 3 If it is a required document for your property: <ul style="list-style-type: none"> • Confirmation that proof of the request for the document is included (for documents required within 28 days of marketing) • reason why not included; • steps being taken to obtain it; • date when it is expected to be obtained; • any reason for further delay and further date by which the document is expected.
1. Index	<input checked="" type="checkbox"/>	
2a. Energy Performance Certificate and Recommendation Report – or:	<input checked="" type="checkbox"/>	02/04/09
2b. Predicted Energy Assessment	<input type="checkbox"/>	
3. Sale statement	<input checked="" type="checkbox"/>	
Title information		
4. Official copy of the individual register (for registered properties only)	<input checked="" type="checkbox"/>	.24/04/09
5. Official copy of the title plan (for registered properties only)	<input checked="" type="checkbox"/>	24/04/09
6. Certificate of official search of the index map (for unregistered properties only)	<input type="checkbox"/>	
7. Documents provided by seller to prove title (for unregistered properties only)	<input type="checkbox"/>	
8. Leases, tenancies or licences for dwellings in a sub-divided building that are being marketed as a single property and where part of the property is being sold with vacant possession	<input type="checkbox"/>	

Column 1 Home Information Pack document	Column 2 Included <input checked="" type="checkbox"/> date on document and any further information	Column 3 If it is a required document for your property: <ul style="list-style-type: none"> Confirmation that proof of the request for the document is included (for documents required within 28 days of marketing) reason why not included; steps being taken to obtain it; date when it is expected to be obtained; any reason for further delay and further date by which the document is expected.

Energy Performance Certificate

Energy Performance Certificate

Flat C6,
Kenilworth Court,
Hagley Road,
BIRMINGHAM, B16 9NT

Dwelling type: Mid-floor flat
Date of assessment: 02 April 2009
Date of certificate: 02 April 2009
Reference number: 0128-3092-6274-6601-1024
Total floor area: 157 m²

This home's performance is rated in terms of the energy use per square metre of floor area, energy efficiency based on fuel costs and environmental impact based on carbon dioxide (CO₂) emissions.

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills are likely to be.

The environmental impact rating is a measure of this home's impact on the environment in terms of Carbon dioxide (CO₂) emissions. The higher the rating the less impact it has on the environment.

Estimated energy use, carbon dioxide (CO₂) emissions and fuel costs of this home

	Current	Potential
Energy use	278 kWh/m ² per year	271 kWh/m ² per year
Carbon dioxide emissions	7.3 tonnes per year	7.2 tonnes per year
Lighting	£150 per year	£83 per year
Heating	£881 per year	£898 per year
Hot water	£167 per year	£167 per year

Based on standardised assumptions about occupancy, heating patterns and geographical location, the above table provides an indication of how much it will cost to provide lighting, heating and hot water to this home. The fuel costs only take into account the cost of fuel and not any associated service, maintenance or safety inspection. This certificate has been provided for comparative purposes only and enables one home to be compared with another. Always check the date the certificate was issued, because fuel prices can increase over time and energy saving recommendations will evolve.

To see how this home can achieve its potential rating please see the recommended measures.

The address and energy rating of the dwelling in this EPC may be given to EST to provide information on financial help for improving its energy performance.

For advice on how to take action and to find out about offers available to make your home more energy efficient, call 0800 512 012 or visit www.energysavingtrust.org.uk/myhome

Certification mark

About this document

The Energy Performance Certificate for this dwelling was produced following an energy assessment undertaken by a qualified assessor, accredited by Elmhurst Energy Systems Ltd, to a scheme authorised by the Government. This certificate was produced using the RdSAP 2005 assessment methodology and has been produced under the Energy Performance of Buildings (Certificates and Inspections) (England and Wales) Regulations 2007 as amended. A copy of the certificate has been lodged on a national register.

Assessor's accreditation number: EES/002297
Assessor's name: Mr. Jonathan Daly
Company name/trading name: Jonathan Daly
Address: 12 Wake Green Road, Birmingham, Moseley, West Midlands, B13 9EZ
Phone number: 07985 696182
Fax number:
E-mail address: energysurvey@hotmail.co.uk
Related party disclosure:

If you have a complaint or wish to confirm that the certificate is genuine

Details of the assessor and the relevant accreditation scheme are as above. You can get contact details of the accreditation scheme from their website at www.elmhurstenergy.co.uk together with details of their procedures for confirming authenticity of a certificate and for making a complaint.

About the building's performance ratings

The ratings on the certificate provide a measure of the building's overall energy efficiency and its environmental impact, calculated in accordance with a national methodology that takes into account factors such as insulation, heating and hot water systems, ventilation and fuels used. The average Energy Efficiency Rating for a dwelling in England and Wales is band E (rating 46).

Not all buildings are used in the same way, so energy ratings use 'standard occupancy' assumptions which may be different from the specific way you use your home. Different methods of calculation are used for homes and for other buildings. Details can be found at www.communities.gov.uk/epbd.

Buildings that are more energy efficient use less energy, save money and help protect the environment. A building with a rating of 100 would cost almost nothing to heat and light and would cause almost no carbon emissions. The potential ratings on the certificate describe how close this building could get to 100 if all the cost effective recommended improvements were implemented.

About the impact of buildings on the environment

One of the biggest contributors to global warming is carbon dioxide. The way we use energy in buildings causes emissions of carbon. The energy we use for heating, lighting and power in homes produces over a quarter of the UK's carbon dioxide emissions and other buildings produce a further one-sixth.

The average household causes about 6 tonnes of carbon dioxide every year. Adopting the recommendations in this report can reduce emissions and protect the environment. You could reduce emissions even more by switching to renewable energy sources. In addition there are many simple everyday measures that will save money, improve comfort and reduce the impact on the environment. Some examples are given at the end of this report.

Visit the Government's website at www.communities.gov.uk/epbd to:

- Find how to confirm the authenticity of an energy performance certificate
- Find how to make a complaint about a certificate or the assessor who produced it
- Learn more about the national register where this certificate has been lodged
- Learn more about energy efficiency and reducing energy consumption

Recommended measures to improve this home's energy performance

Flat C6,
Kenilworth Court,
Hagley Road,
BIRMINGHAM, B16 9NT

Date of certificate: 02 April 2009
Reference number: 0128-3092-6274-6601-1024

Summary of this home's energy performance related features

The following is an assessment of the key individual elements that have an impact on this home's performance rating. Each element is assessed against the following scale: Very poor / Poor / Average / Good / Very good.

Elements	Description	Current performance	
		Energy Efficiency	Environmental
Walls	Solid brick, as built, no insulation (assumed)	Very poor	Very poor
Roof	(another dwelling above)	-	-
Floor	(other premises below)	-	-
Windows	Full secondary glazing	Good	Good
Main heating	Community scheme	Good	Good
Main heating controls	Flat rate charging, no thermostatic control of room temperature	Very poor	Very poor
Secondary heating	None	-	-
Hot water	From main system	Good	Good
Lighting	Low energy lighting in 20% of fixed outlets	Poor	Poor
Current energy efficiency rating		D 59	
Current environmental impact (CO₂) rating		E 52	

Low and zero carbon energy sources

None

Recommendations

The measures below are cost effective. The performance ratings after improvement listed below are cumulative, that is they assume the improvements have been installed in the order that they appear in the table.

Lower cost measures (up to £500)	Typical savings per year	Performance ratings after improvement	
		Energy efficiency	Environmental impact
1 Low energy lighting for all fixed outlets	£50	D 61	E 53
Total	£50		
Potential energy efficiency rating		D 61	
Potential environmental impact (CO ₂) rating		E 53	

Further measures to achieve even higher standards

None

Improvements to the energy efficiency and environmental impact ratings will usually be in step with each other. However, they can sometimes diverge because reduced energy costs are not always accompanied by a reduction in carbon dioxide (CO₂) emissions.

About the cost effective measures to improve this home's energy ratings

If you are a tenant, before undertaking any work you should check the terms of your lease and obtain approval from your landlord if the lease either requires it, or makes no express provision for such work.

Lower cost measures (typically up to £500 each)

These measures are relatively inexpensive to install and are worth tackling first. Some of them may be installed as DIY projects. DIY is not always straightforward, and sometimes there are health and safety risks, so take advice before carrying out DIY improvements.

1 Low energy lighting

Replacement of traditional light bulbs with energy saving recommended ones will reduce lighting costs over the lifetime of the bulb, and they last up to 12 times longer than ordinary light bulbs. Also consider selecting low energy light fittings when redecorating; contact the Lighting Association for your nearest stockist of Domestic Energy Efficient Lighting Scheme fittings.

About the further measures to achieve even higher standards

Not applicable

What can I do today?

Actions that will save money and reduce the impact of your home on the environment include:

- Ensure that you understand the dwelling and how its energy systems are intended to work so as to obtain the maximum benefit in terms of reducing energy use and CO2 emissions.
- Check that your heating system thermostat is not set too high (in a home, 21°C in the living room is suggested) and use the timer to ensure you only heat the building when necessary.
- Turn off lights when not needed and do not leave appliances on standby. Remember not to leave chargers (e.g. for mobile phones) turned on when you are not using them.
- Close your curtains at night to reduce heat escaping through the windows.
- If you're not filling up the washing machine, tumble dryer or dishwasher, use the half-load or economy programme.

Consumer Redress

CONSUMER REDRESS

Consumer Direct provides a single portal service for consumers interested in redress for any features of the home buying and selling process - including specific Home Information Pack concerns.

Consumer Direct is a telephone and online consumer advice service, supported by the Office of Fair Trading. Their advisers are trained in all aspects of consumer rights, which enables them to offer clear, practical, impartial advice and courses of action that consumers can rely on.

Advisers will provide information and advice on the current redress schemes in place for the home buying and selling process and direct consumers to the relevant organisation.

Please note that Consumer Direct do not intervene directly in consumer matters, such as taking action against a trader. Complaints recorded on their database are allegations on the part of the complainant. They do not ask for the trader's version of events, nor is it within the scope of the Consumer Direct service to verify the accuracy and truthfulness of the complaints as presented by consumers.

Sale Statement

Sale statement

Insert address of property to be sold below and include postcode.

Apartment C6
Kenilworth Court
Hagley Road
Birmingham

About this form:

- Under the Home Information Pack (No.2) Regulations 2007, you must provide the following information in your Home Information Pack and may use this form to do so.
- Someone else can complete this form on behalf of a seller.
- If the property has not yet been completed or converted, please answer the questions as if the property has been completed or converted.
- Please answer all questions by checking the relevant box and adding any further information asked for. Where alternatives are offered, please indicate which one (or more) applies.

Seller's check of this form

- Someone else can complete this form on behalf of a seller, but since a buyer and mortgage lender might rely on the information in this form, it is important that the seller checks the answers to ensure that they are truthful and accurate.

	Statement
1. Is the property a flat or a house?	<input checked="" type="checkbox"/> Flat (incl. maisonette) or <input type="checkbox"/> House (incl. bungalow)
2. If it is a flat, what type of building is it in?	<input checked="" type="checkbox"/> Purpose built block <input type="checkbox"/> Converted house or <input type="checkbox"/> Conversion of commercial premises
3. The property is (or will be):	<input type="checkbox"/> Freehold <input type="checkbox"/> Commonhold <input checked="" type="checkbox"/> Leasehold – 99 years from the 10 th March 1960

Title Information

The electronic official copy of the register follows this message.

Please note that this is the only official copy we will issue. We will not issue a paper official copy.

Official copy of register of title

Title number WM744190

Edition date 21.02.2006

- This official copy shows the entries on the register of title on 24 Apr 2009 at 08:19:01.
- This date must be quoted as the "search from date" in any official search application based on this copy.
- The date at the beginning of an entry is the date on which the entry was made in the register.
- Issued on 24 Apr 2009.
- Under s.67 of the Land Registration Act 2002, this copy is admissible in evidence to the same extent as the original.
- For information about the register of title see Land Registry website www.landregistry.gov.uk or Land Registry Public Guide *1-A guide to the information we keep and how you can obtain it*.
- This title is dealt with by Land Registry Coventry Office.

A: Property Register

This register describes the land and estate comprised in the title. Except as mentioned below, the title includes any legal easements granted by the registered lease but is subject to any rights that it reserves, so far as those easements and rights exist and benefit or affect the registered land.

WEST MIDLANDS : BIRMINGHAM

- 1 (04.05.2001) The Leasehold land shown edged with red on the plan of the above Title filed at the Registry and being Flat C6, Kenilworth Court, Hagley Road (B16 9NT).

NOTE: Only the second floor flat is included in the title.
- 2 (04.05.2001) The mines and minerals excepted by the Lease are excluded from this registration.
- 3 (04.05.2001) Short particulars of the lease(s) (or under-lease(s)) under which the land is held:
Date : 10 March 1960
Term : 99 years (less 3 days)
Rent : £25
Parties : (1) Kenilworth Court (Birmingham) Limited
(2) Aaron Glass and Leah Glass
- 4 (04.05.2001) There are excepted from the effect of registration all estates, rights, interests, powers and remedies arising upon, or by reason of, any dealing made in breach of the prohibition or restriction against dealings therewith inter vivos contained in the Lease.
- 5 The lessor's title is registered.
- 6 Unless otherwise mentioned the title includes any legal easements granted by the registered lease(s) but is subject to any rights that it reserves, so far as those easements and rights exist and benefit or affect the registered land.

Title number WM744190

B: Proprietorship Register

This register specifies the class of title and identifies the owner. It contains any entries that affect the right of disposal.

Title absolute

- 1 (21.10.2004) PROPRIETOR: DAVID JOHN IAN DUNN of Flat C6, Kenilworth Court, Hagley Road, Birmingham B16 9NT.
- 2 (04.05.2001) The Transfer to the proprietor contains a covenant to observe and perform the covenants on the part of the Lessee and conditions contained in the Headlease dated 10 December 1936 made between (1) the Honourable Dame Rachel Anstruther Gough Calthorpe and (2) Kenilworth Court (Birmingham) Limited.
- 3 (21.10.2004) The price stated to have been paid on 28 September 2004 was £370,000.
- 4 (21.10.2004) RESTRICTION: No disposition of the registered estate by the proprietor of the registered estate is to be registered without a written consent signed by the proprietor for the time being of the Charge dated 28 September 2004 in favour of HSBC Bank PLC referred to in the Charges Register.

C: Charges Register

This register contains any charges and other matters that affect the land.

- 1 (21.10.2004) REGISTERED CHARGE dated 28 September 2004 affecting also title WM585054.
- 2 (21.10.2004) Proprietor: HSBC BANK PLC (Co. Regn. No. 14259) 40-41-42 of Mortgage Service Centre, P.O. Box 1546, Sheffield S1 2UJ.

End of register

These are the notes referred to on the following official copy

The electronic official copy of the title plan follows this message.

Please note that this is the only official copy we will issue. We will not issue a paper official copy.

This official copy was delivered electronically and when printed will not be to scale. You can obtain a paper official copy by ordering one from Land Registry.

This official copy is issued on 24 April 2009 shows the state of this title plan on 24 April 2009 at 08:19:01. It is admissible in evidence to the same extent as the original (s.67 Land Registration Act 2002). This title plan shows the general position, not the exact line, of the boundaries. It may be subject to distortions in scale. Measurements scaled from this plan may not match measurements between the same points on the ground. See Land Registry Public Guide 19 - *Title Plans and Boundaries*.

CON29 Part I

Standard Enquiries of Local Authority – (2007 Edition)

1. PLANNING AND BUILDING REGULATIONS

1.1 Planning and Building Regulation Decisions and Pending

Applications

which of the following relating to the property have been granted, issued or refused or (where applicable) are the subject of pending applications: -

- (a) planning permissions
- (b) listed building consents
- (c) conservation area consents
- (d) certificates of lawfulness of existing use or development
- (e) certificates of lawfulness of proposed use or development
- (f) building regulation approvals
- (g) building regulation completion certificates
- (h) any building regulations certificate or notice issued in respect of work carried out under a competent person self-certification scheme

1.2 Planning Designations and Proposals

What designations of land use for the property or the area, and what specific proposals for the property, are contained in any existing or proposed development plan?

2. ROADS

Which of the roads, footways, and footpaths named in the application for this search (via boxes B and C) are: -

- (a) highways maintainable at public expense;
- (b) subject to adoption and, supported by a bond or bond waiver;
- (c) to be made up by a local authority who will reclaim the cost from the frontages; or
- (d) to be adopted by a local authority without reclaiming cost from the frontages ?

Apart from matters entered on the registers of Local Land Charges, do any of the following matters apply to the property

3. OTHER MATTERS

3.1 Land required for Public Purposes

Is the property included in land required for public purposes?

3.2 Land to be acquired for Road Works

Is the property included in land required for road works?

3.3 Drainage Agreements and Consents

Do either of the following exist in relation to the property -

- (a) An agreement to drain buildings in combination into an existing sewer by means of a private sewer; or
- (b) An agreement or consent for (i) a building or (ii) extension to a building on the property to be built over, or in the vicinity of a drain, sewer or disposal main.

3.4. Nearby Road Schemes

Is the property (or will it be) within 200 metres of any of the following:-

- (a) the centre line of a new trunk road or special road specified in any order, draft order or scheme
- (b) the centre line of a proposed alteration or improvement to an existing road, involving the construction of a subway, underpass, flyover, footbridge, elevated road or dual carriageway.
- (c) the outer limits of construction works for a proposed alteration or improvement to an existing road, involving (i) the construction of a roundabout (other than a mini roundabout) or (ii) widening by the construction of one or more additional traffic lanes.
- (d) the outer limits of (i) construction of a new road to be built by local authority (ii) an approved alteration or improvement to an existing road involving the construction of a subway, underpass, flyover, footbridge, elevated road or dual carriageway; or (iii) construction a roundabout (other than a mini roundabout) or widening by the construction of one or more additional traffic lanes;
- (e) the centre line of the possible route of a new road under proposals published for public consultation; or
- (f) the outer limits of (i) construction of a possible alteration or improvement to an existing road involving the construction of a subway, underpass, flyover, footbridge, elevated road or dual carriageway; (ii) construction of a roundabout (other than a mini roundabout) or (iii) widening by the construction of one or more additional traffic lanes, under proposals published for public consultation

3.5. Nearby Railway Schemes

Is the property (or will it be) within 200 metres of the centre line of a proposed railway, tramway, light railway or monorail.

3.6. Traffic Schemes

Has a local authority approved but not yet implemented, any of the following for the roads, footways and footpaths (named in Box B) which about the boundaries of the property:

- (a) permanent stopping up or diversion
- (b) waiting or loading restrictions
- (c) one way driving
- (d) prohibition of driving
- (e) pedestrianisation
- (f) vehicle width or weight restriction
- (g) traffic calming works including road humps
- (h) residents parking controls
- (i) minor road widening or improvement
- (j) pedestrian crossings
- (k) cycle tracks
- (l) bridge building

3.7. Outstanding Notices

Do any statutory notices which relate to the following matters subsist in relation to the property other than those revealed in a response to any other enquiry in this schedule:-

- (a) building works,
- (b) environmental
- (c) health and safety
- (d) housing
- (e) highways; or
- (f) public health

3.8. Contravention of Building Regulations

has a local authority authorized in relation to the property any proceedings for the contravention of any provision contained in Building Regulations?

3.9. Notices, Orders, Directions and Proceedings under Planning Acts

Do any of the following subsist in relating to the property, or has a local authority decided to issue, serve, make or commence any of the following

- (a) an enforcement notice
- (b) a stop notice
- (c) a listed building enforcement notice
- (d) a breach of condition notice
- (e) a planning contravention notice
- (f) another notice relating to breach of planning control
- (g) a listed building repairs notice
- (h) in the case of a listed building deliberately allowed to fall into disrepair, a compulsory purchase order with a direction for minimum compensation;
- (i) a building preservation notice
- (j) a direction restricting permitted development
- (k) an order revoking or modifying a planning permission
- (l) an order requiring discontinuance of use or alterations or removal of building or works;
- (m) tree preservation order or
- (n) proceedings to enforce a planning agreement or planning contribution

3.10. Conservation Area

- (a) the making of the area a Conservation Area before 31st August 1974 ; or
- (b) an unimplemented resolution to designate the area a Conservation Area.

3.11. Compulsory Purchase

Has any enforceable order or decision been made to compulsory purchase or acquire the property?

3.12. Contaminated Land

Do any of the following apply (including any relating to land adjacent to or adjoining the property which has been identified as contaminated land because it is in such a condition that harm or pollution of controlled waters might be caused on the property)

- (a) a contaminated land notice;
- (b) in relation to register maintained under section 78R of the Environmental protection Act 1990:-
 - (i) a decision to make an entry; or
 - (ii) an entry; or
- (c) Consultation with the owner or occupier of the property conducted under s.78G(3) of the Environmental protection Act 1990 before the service of a remediation notice?

3.13. Radon Gas

Do records indicate that the property is in a " Radon Affected Area" as identified by the Health Protection Agency?

(b) The City Council has no information to answer this enquiry.

PLANNING AND BUILDING REGULATIONS

- 1.1 (a) See attached sheet.
(b) See Attached Sheet
(c) See Attached Sheet
(d) See Attached Sheet
(e) See Attached Sheet
(f) NONE
(g) None
(h) Birmingham City Councils property database does not presently interface with the various Competent Person scheme suppliers. Certification for work is issued to the homeowner on completion of work and duplicates if required can be obtained from the relevant provider

1.2 None - however, see attached sheet, titled Statutory Development Plan For Birmingham

ROADS

- 2 (a)
The road referred to in Box B on the Con 29 is highway maintainable at the public expense
(The council cannot express an opinion whether or not any existing or proposed highway directly abuts the boundary of the property).
(b) None
(c) None
(d) None

OTHER MATTERS

If one of the following matters is shown as a Local Land Charge it will not be repeated here

3.1 No

3.2 Yes, Redevelopment affected for approximately 2.85 meters

3.3 (a) The City Council has no information to answer this enquiry.

- 3.4 (a) No
(b) No
(c) No
(d) Yes - In respect of additional traffic lane property physically affected and Yes - in respect of additional traffic lane but property not physically affected
(e) No
(f) No

3.5

The property subject of your search is within 200m of a corridor of a possible future Metro scheme, the centre line of which has not yet been fixed. Centro and the Council are currently assessing the viability of this scheme and land requirements for it.

Midland Metro is a light rail rapid passenger transport system which uses a modern design electric vehicle. It is quiet, safe and fume free and therefore environmentally friendly.

If you require further details, send any enquiries together with a location plan to Mrs. Angela Ward, Metro Team, Centro, 16 Summer Lane, Birmingham, B19 3SD.

3.6 (a) NO - (In some circumstances, road closure orders can be obtained by third parties, from magistrates courts or can be made by the Secretary of State for Transport without involving the Council).

- (b) No
(c) No
(d) No
(e) No
(f) No
(g) No
(h) No
(i) Yes, Proposal for Road Surface Improvements or Anti Skid.
(j) No
(k) No
(l) No

If further written information or plans are required for any responses to questions 2, 3.2, 3.4 and 3.6 please request from Highways Information Section, Transportation Development,

Form LLC1

Copies of Land Charges

Copies of land charges can be obtained by writing to:
Local Land Charges, PO Box 28, Alpha Tower, Suffolk Street Queensway, Birmingham B1 1TU.

Question 1.1 (a,b,c,d.)

Copies of Planning Applications

Copies of planning application decision documents can be obtained by writing to Chief Planning Officer, PO Box 28, Alpha Tower, Suffolk Street Queensway, Birmingham. B1 1TU
Or Online at www.birmingham.gov.uk/planningapplications

Question 1.1 (e,f.)

Building Regulation Enquiries

Please Note

Building Regulations application activity is only recorded since March 1990. We have no records relating to Building Regulation activity prior to this date.

Clarification of Codes (if applicable)

APP = Full Building Regulation Approval

BN = Prefix indicates a Building Notice. This is no more than a notification of intent to build and as such does not receive 'Approval'. Compliance is achieved through site supervision only resulting where satisfactory in the issue of a Completion Certificate.

CAP = Conditional Approval (usually minor items or items that can be cleared during the construction of the building).

REJ = Formal Rejection which will usually result in the submission of an amended application (References with an A... suffix).

IN = Prefix indicates an Initial Notice. This means that the work in question was supervised by Private Sector Building Control and not Birmingham City Council. In these instances copy documents will need to be obtained direct from the relevant building control provider.

Construction status – Completion Certificates

The presence of a 'completion' relates to the issue of a Completion Certificate for the constructed building. This confirms that the structure has been inspected and complied with the building regulations in force at the time. Please Note that Completion Certificates were not formally introduced by the Government until 1992.

Specific Building Regulation enquiries should be directed to the Business Support Unit on 0121 675 7006 or building.consultancy@birmingham.gov.uk

THE STATUTORY DEVELOPMENT PLAN FOR BIRMINGHAM

1. In September 2004, a new planning system came into effect, and this has changed the definition of the development plan, as well as the way that plans are prepared. The statutory development plan for Birmingham currently comprises:
 - o The Regional Spatial Strategy for the West Midlands (RPG11) – June 2004
 - o The Birmingham Unitary Development Plan 2005 – October 2005

These are the main planning policy documents that the City Council's Planning Committee refers to when making decisions on planning applications. As and when new Development Plan Documents (DPDs) are adopted (see 2 below), they will also become part of the statutory development plan. Information about the Birmingham Unitary Development Plan (UDP) 2005 is set out below (see 3 - 5). The Regional Spatial Strategy (RSS) contains broad strategic policies for the West Midlands Region as a whole and does not allocate specific sites for development. The RSS is available on the website of the West Midlands Regional Assembly (WMRA) (www.wmra.gov.uk).

BIRMINGHAM LOCAL DEVELOPMENT FRAMEWORK (LDF)

2. Under the new planning system, the City Council is required to maintain a Local Development Framework (LDF), which is a "folder" containing a range of different types of planning policy document. At present, the LDF contains the Birmingham Unitary Development Plan 2005 (see 3 – 5 below for details) and several adopted Supplementary Planning Documents (SPDS). Further Local Development Documents - will be added to the LDF as and when they are adopted. There are two types of Local Development Document that may affect particular properties. Development Plan Documents (DPDs) are statutory plans and may allocate sites or land for development. Once adopted, DPDs will become part of the statutory development plan for Birmingham (see 1 above). Supplementary Planning Documents (SPDs) may not allocate land, but may provide more detailed guidance in support of policies in either the UDP or an adopted DPD. Before proceeding with the purchase or lease of a property, it is advisable to check whether any Local Development Documents might affect the property, or your future plans for it. Details of all of the Local Development Documents that the City Council have adopted or will prepare during the next three years are set out in the Local Development Scheme (LDS) for Birmingham, which is available on the City Council's website (www.birmingham.gov.uk/lds). A copy of the LDS is also available for public inspection during normal office hours on Mondays to Fridays at:

Reception Desk
9th Floor
Alpha Tower
Suffolk Street Queensway
Birmingham B1 1TU

As and when they are published, adopted and draft Local Development Documents will also be made available on the City Council's website.

BIRMINGHAM UNITARY DEVELOPMENT PLAN (UDP) 2005

3. The Birmingham Unitary Development Plan (UDP) was adopted by Birmingham City Council on 11 October 2005. It is part of the statutory development plan for Birmingham

(see 1 above) and is also part of the Local Development Framework (LDF) for Birmingham (see 2 above).

4. The Birmingham Unitary Development Plan 2005 is available on the City Council's website (www.birmingham.gov.uk/udp) and for public inspection during normal office hours on Mondays to Fridays at:

Reception Desk
9th Floor
Alpha Tower
Suffolk Street Queensway
Birmingham B1 1TU

5. If there are specific proposals in the UDP that may affect the property, this will show up in your search (see 1.2). The UDP also includes policy guidance on a range of issues, and you should be aware that this could affect your future plans for the property, if you are purchasing it with a view to changing its use or redeveloping it. If this is the case, it is advisable to check with the City Council before proceeding (Telephone: 0121 – 303 4041/3430).

SUPPLEMENTARY PLANNING GUIDANCE (SPG)

6. The City Council has adopted Supplementary Planning Guidance (SPG) on various subjects, and for various areas within the City, which support the policies in the UDP. Some relate to particular areas, and others provide general guidance on particular subjects, such as design guidance. These policies may affect the property, or your future plans for the property. All Supplementary Planning Guidance policies currently in use are listed in the Local Development Scheme (LDS) for Birmingham, which is available on the City Council's website (www.birmingham.gov.uk/lDs) and for public inspection during normal office hours on Mondays to Fridays at:

Reception Desk
9th Floor
Alpha Tower
Suffolk Street Queensway
Birmingham B1 1TU

7. Most SPG policies are themselves available on the City Council's website in the document library (www.birmingham.gov.uk/documentlibrary). Copies of these documents may also be obtained from the City Council's Planning Enquiry Centre 0121 – 303 1115.

Conservation Areas & Listed Buildings **A guide for owners and occupiers**

Contents

Listed Buildings
Conservation Areas
Carrying out work to your property
Birmingham's Conservation Areas
Contact us

Birmingham is a city of contrasts, particularly in its built environment, which includes a wealth of architectural and building styles from all periods of history. The city has over 1,800 buildings listed for their architectural or historic interest, which vary enormously in character and age, but all contribute to our unique heritage. More buildings are being listed each year. This guide aims to help us all work together to preserve and enhance our heritage, for all of Birmingham's people, for today and for the future. Most of the information in this booklet is also available on our web pages, along with the latest information on conservation areas. Please visit our website at www.birmingham.gov.uk/buildingconservation

Listed Buildings

Birmingham's listed buildings range from the 12th century Church of St. Laurence in Northfield to the Rotunda, which opened in 1965, and from cast iron Victorian public urinals to Aston Hall, one of the country's great Jacobean houses. Most Birmingham buildings built before 1840 that survive in anything like their original condition are listed. From 1840-1914, only buildings of special quality and character are listed - Victoria House in Victoria Square, once the city's general post office, is a well known example. The Barber Institute at the University of Birmingham is one of the city's few inter-war buildings to have been listed and 17 pre-fabricated bungalows in Hall Green, built as temporary accommodation in 1947, have been listed for their historic and architectural interest.

Why have listed buildings?

Listed buildings and structures are part of Birmingham's heritage and a sign of continuity from one age to the next. They help create a more interesting and attractive city for people who live, work and visit here. Listing a building under the Planning (Listed Buildings and Conservation Areas) Act 1990 gives it legal protection from demolition or unsuitable or inappropriate alterations which would destroy historic features or affect its character - so that it can be preserved for future generations to enjoy. Birmingham City Council has approved policies to further safeguard listed buildings, which are set out in the Birmingham Plan (the Unitary Development Plan for Birmingham) and the Conservation Strategy, "Regeneration Through Conservation" (which forms supplementary planning guidance to the Birmingham Plan).

Who decides whether a building should be listed?

A listed building is a building or structure considered by the Secretary of State for Culture, Media and Sport to be of special architectural or historic interest. Several factors will influence this decision, including the age or rarity of the building, technological innovation, architectural or historic associations. The council also keeps a "Local List" of properties that it considers important to protect but which are not listed by the Secretary of State.

Listed Buildings are graded to show their importance:

Grade I

buildings of exceptional quality (1.3 per cent of all listed buildings in Birmingham, including Birmingham Town Hall and Aston Hall)

Grade II*

particularly important buildings (4.7 per cent, including the Old Crown pub in Deritend and the Council House)

Grade II

the majority of the buildings listed as being of special interest (94 per cent)

When a building is listed, it affects both the inside and outside of that building, together with any outhouses, walls or other structures that were built before 1 July 1948 within the curtilage or grounds, of the listed building.

How can I find out if a particular property is listed?

The council's Conservation Team can provide details of all listed buildings in Birmingham for a small fee. They will also be listed on the council's web site from early 2003.

As an owner/occupier of a listed building, what role do I play?

Anyone who is an owner/occupier of a listed building is not just responsible for bricks and mortar - they are a guardian of part of the city's heritage.

Most owners and occupiers are proud of their building's listed status. Very often, the reason they have chosen the building is because of its unique character and history.

As well as there being a legal obligation to maintain the building in a satisfactory condition, we all want to respect the history of the city's buildings and leave them in the best possible state so that they can be enjoyed by future generations.

What happens if a listed building is neglected and falls into disrepair?

If a listed building does fall into disrepair, the council has powers to carry out whatever repairs are necessary and to recover the costs from the owner. As a last resort, the council could compulsorily purchase the property to protect it from neglect. In almost all cases, however, the situation is resolved by talking to the owners and by giving the advice and information needed to help them take proper care of their building.

Did you know?

There are 25 Grade One listed buildings in Birmingham

Can any changes be made to a listed building?

Listing does not mean that changes cannot be made, but it is important that any changes made to a building through repairs, maintenance or alterations are in keeping with its age and design. Care should be taken to match original materials and building methods and to avoid damaging features of historic or architectural value.

VERY IMPORTANT!

Permission must be applied for BEFORE making any internal or external alterations to a listed building which would affect its character. Please read carefully the section on getting permission.

What is the local list?

This is a schedule of buildings which have not been listed by the Secretary of State for Culture, Media and Sport but are considered by the council to be an important part of the city's heritage.

Locally listed buildings are graded A, B or C and are put on the list because of their architectural, historical or archaeological interest.

Buildings classified as Grade A will be referred to the Secretary of State for Culture, Media and Sport recommending statutory listing if they are threatened with demolition or unsympathetic alterations. As with all listed buildings, if your property is on the local list you should make sure that any work you plan to carry out preserves any features of historic or architectural interest and is in keeping with the character of the original building and its setting. You can contact the Conservation Team for details of all locally listed properties.

CONSERVATION AREAS

In some areas of the city, it is not just individual buildings that need to be preserved and protected from unsympathetic alterations or demolition. These areas are known as conservation areas, and there are 27 of them in Birmingham. Each reflects the city's rich and diverse heritage in its own way but they have one thing in common: they contain buildings and structures which provide a wonderful historical and architectural legacy. By acquiring conservation area status, this legacy is safeguarded for future generations.

The city's conservation areas range from the Jewellery Quarter, which contains Europe's largest and best surviving group of Victorian and early 20th century buildings devoted to the manufacture of jewellery and similar small goods, to Bournville Village, which dates from the late 19th century and is internationally acclaimed for the high standards of housing and open spaces it provided for Cadbury's factory workers.

How does a conservation area achieve this status?

While the council is ultimately responsible for deciding whether an area should be given conservation area status, the decision is only taken after extensive research and consultation with people living and owning property in the area.

It is in all our interests to ensure that the appearance of conservation areas is preserved or enhanced, and planning legislation and council policy is in place to help this process. You can find more information on these policies in the council's Birmingham Plan and "Regeneration Through Conservation".

The aim is to protect significant buildings and to ensure that any new developments maintain and improve conservation areas' special character.

How does the council protect conservation areas?

To help us all preserve our conservation areas, there are a number of powers available to the council under planning law. These allow us to:

- control new development or redevelopment
- control demolition of existing buildings and other structures
- protect trees growing in the area, both on public and private land
- control advertisements and hoardings
- carry out urgent work necessary to preserve any vacant unlisted building that has fallen into serious disrepair and to recover costs from the owner
- give extra protection to conservation areas by applying an Article 4(2) Direction. This means that even minor alterations, such as building a porch, replacing windows or re-roofing could require planning permission in these areas. Occasionally, an Article 4(1) Direction is applied; this gives even stronger protection,

but requires Government approval before it is introduced. Article 4 Directions have been introduced in a number of conservation areas in the city and others may be introduced. Residents will be notified when this happens but if you want to make alterations to your property, please check before any work is carried out.

What if my property is in a conservation area?

Most people welcome the fact that their property is in a conservation area. Very often the reason they have chosen to live in such an area is because of its unique character and history, which the council is taking special care to protect.

Homeowners and residents have a valuable role

to play by ensuring that any changes made to properties through repairs, maintenance or alterations are in keeping with the character of the buildings and the area. Care should be taken to match original materials and methods of construction and to avoid damaging features of historical or architectural value.

CARRYING OUT WORK TO YOUR PROPERTY

Council conservation officers can advise householders and their builders about the most appropriate construction methods and materials to be used in repairing and maintaining their properties. For example, they can recommend the types of brick or roofing materials that are in keeping with the property and the area.

Owner/occupiers need to avoid making unsympathetic alterations, for example replacing original windows with uPVC windows or windows of a different design, removing chimneys or changing the original roofing materials, which may not just spoil the appearance of the conservation area but may also significantly reduce the property's resale value. Independent studies show that houses which retain their original features will usually sell for more than those which have been unsympathetically modernised.

Getting permission to make changes

Before starting any work, it is recommended that you check with the council whether any special approvals or permissions are required. This can save you wasting both time and money.

Planning permission and building regulations approval may be needed for some alterations and other permissions may also be required when a property is listed or in a conservation area. For example Conservation Area Consent may be needed before you can carry out demolition work and, as most trees in conservation areas are protected, special permission will be needed to carry out any work on them. Listed building consent will be needed for any work affecting the character of a listed building. This could include work to the inside as well as the outside and may include relatively minor alterations or redecoration, for example, painting of outside walls which have not previously been painted.

Did you know?

It is a criminal offence to cut, lop, uproot, or otherwise wilfully damage or chop down any tree in a conservation area without permission. Fines of up to £20,000 can be imposed on those responsible.

Generally, listed building consent will be required before you start on:

- any demolition work, including chimneys, internal and external walls or other buildings or walls within the grounds of the property
- any extensions to the building
- any other alterations such as a new roof, replacement windows, or new gutters and drainpipes, if materials or designs are different from the original.

We cannot stress enough how important it is to get permission first. To be sure, please contact the council well in advance of starting work so that we can advise you on the permissions you will need and provide the relevant forms and guidance.

Please note: in some areas (for example Bournville or the Calthorpe Estate, Edgbaston), the estate manager's permission may also be needed. The estate manager should be contacted to find out whether permission is needed and how to apply.

It can be a criminal offence to carry out work on listed buildings or properties in conservation areas without permission and the council can prosecute if work is carried out illegally. As well as prosecuting an owner for carrying out works without permission, the council can issue an enforcement notice which means that the owner must restore the building to its original condition.

Financial assistance for repair work on listed buildings and in conservation areas

Grants may be available to subsidise the cost of repairs necessary to preserve and protect buildings in some areas. You can contact the council's conservation officers to find out if repairs to your property will be eligible for grant support. If your property does qualify, do not start the work until the grant has been approved.

Did you know?

The maximum sentence on conviction in a Magistrates Court for carrying out work on listed buildings or properties in conservation areas without permission is up to six months imprisonment, a fine of up to £20,000 or both. If convicted in the Crown Court, the maximum sentence is two years or an unlimited fine.

The Conservation Team

The Planning Service's Conservation Team can provide specialist advice and guidance on all conservation matters including conservation areas, listed buildings, locally listed buildings, scheduled ancient monuments and other sites of archaeological importance in Birmingham.

Further information

We would encourage everyone to take an interest in preserving and improving their property, both for themselves and the overall good of the city. To find out more about the council's Planning Service, its approach to conservation or to obtain plans of the conservation areas, copies of the The Birmingham Plan and "Regeneration Through Conservation"

- or a range of other leaflets and documents which contain advice and information for customers - please contact us.

There may be a charge for some of these documents or you can look at reference copies at the Reception Desk, 9th Floor, Alpha Tower.

THE CALTHORPE EDGBASTON ESTATE

MANAGEMENT SCHEME UNDER THE LEASEHOLD REFORM ACT 1967

SECTION 19

NOTES OF PROCEDURES TO BE FOLLOWED ON THE SALE OR DISPOSAL OF
THE FREEHOLD PROPERTY FORMING PART OF THE ABOVE ESTATE AND

BEING SUBJECT TO THE SCHEME

A. BEFORE COMPLETION

The Management charge is payable in arrear on the 31st day of December in each year. This should be taken in consideration and the Seller charged with his due proportion to the completion date.

A purchaser should ensure that there are no arrears of Management charge outstanding at the completion date.

B. AFTER COMPLETION

The Transfer shall be registered with The Calthorpe Estate Office at 76 Hagley Road, Edgbaston, Birmingham, B16 8LU within one month of completion and the following documents shall be enclosed:-

1. Notice of Transfer
2. Copy Transfer which should include details of the stamps impressed on the original.
3. The registration fee - £25 (subject to alterations)

C. In the event of the death of the Purchaser of the Freehold on any House acquired by him or as soon as practicable after the Devolution on death of such Freehold the Probate of the Will or the Letters of Administration under which such devolution arises and any assent in respect of such freehold should also be registered as aforesaid.

N.B. Please keep a copy of these notes with the Title Deeds

A copy of the Management Scheme is available on payment of an appropriate fee from :-

Local Land Charges

Re: Limestone Information

Messrs. Ove Arrup completed a commission on behalf of the Department of the Environment to survey and report on limestone workings within the Black Country area several years ago.

I am advised that the survey found no evidence of any limestone workings within the City of Birmingham and indeed the nearest workings were approximately one mile outside the northern boundary of the City.

I am not aware of any other source of comprehensive information about limestone workings or other mineral workings in the City of Birmingham other than the Department of the Environment report.

Water & Drainage Searches

The Cold War

12 Wake Green Road
Moseley
Birmingham
B13 9EZ

Order Date: **Thursday, 2 April 2009**
Order No: **20102415**
Customer Ref: **c6 kenilworth**

Severn Trent Searches has carried out enquiries into the following property, in line with its published terms of sale upon request from The Cold War

FLAT C6
KENILWORTH COURT HAGLEY ROAD
BIRMINGHAM
B16 9NT

In response to the enquiry for drainage and water information, this search report was prepared following examination of either the following original records or summary records derived from the original: the Map of Public Sewers, the Map of Waterworks, Water and Sewer Billing Records, Adoption of Public Sewer Records, Building Over Public Sewer Records, the Register of Properties subject to Internal Foul Flooding, the Register of Properties subject to Poor Water Pressure and the Drinking Water Register. Should the property not fall entirely within the Severn Trent Water Region, a copy of the records held by South Staffordshire Water of other relevant Water Company will be searched also. Severn Trent Searches is responsible for the accuracy of the information contained within the search report.

Question 1

Interpretation of Drainage and Water Enquiry.

Appendix 1 of this report contains definitions of terms and expressions identified in Part 1 of Schedule 8 of Statutory Instrument 2007 No 1667 known as the Home Information Pack (No.2) Regulations 2007 (the "Regulations").

Question 2

Enquiries and Responses.

The Search Report on the above property was completed on 3 Apr, 2009 by Rebecca Whitt, a technician employed by Severn Trent Searches and complies with the requirements of the Regulations in relation to Drainage and Water Enquiries. In the event of any queries about the preparation of this search report, enquiries should be directed to:

enquiries@severntrentsearches.com

Or the Customer Service Manager, Severn Trent Searches at the address below.

Severn Trent Searches has put in place procedures to ensure that customers receive support in the event of any complaint. Our formal Complaints Procedure is set out in Appendix 2.

The address for all correspondence is:

Severn Trent Searches
PO Box 6187
Nottingham

Nottingham 43

ORDER SUMMARY

To help understand the implications of the Drainage and Water Enquiries Report which has been prepared in accordance with Schedule 8 of the Home Information Pack Regulations, a summary guide to the content of the full report is provided below. This guide should be read in the context of and with reference to the full report and associated guidance notes.

The following 3 classifications have been used to highlight whether or not the response to a particular question is something that would normally be expected or otherwise. The classifications are intended purely as a guide to assist in the understanding of the HIPS Report and do not imply that the property is fit to purchase or otherwise and this decision will rest with the prospective purchaser and their professional advisers.

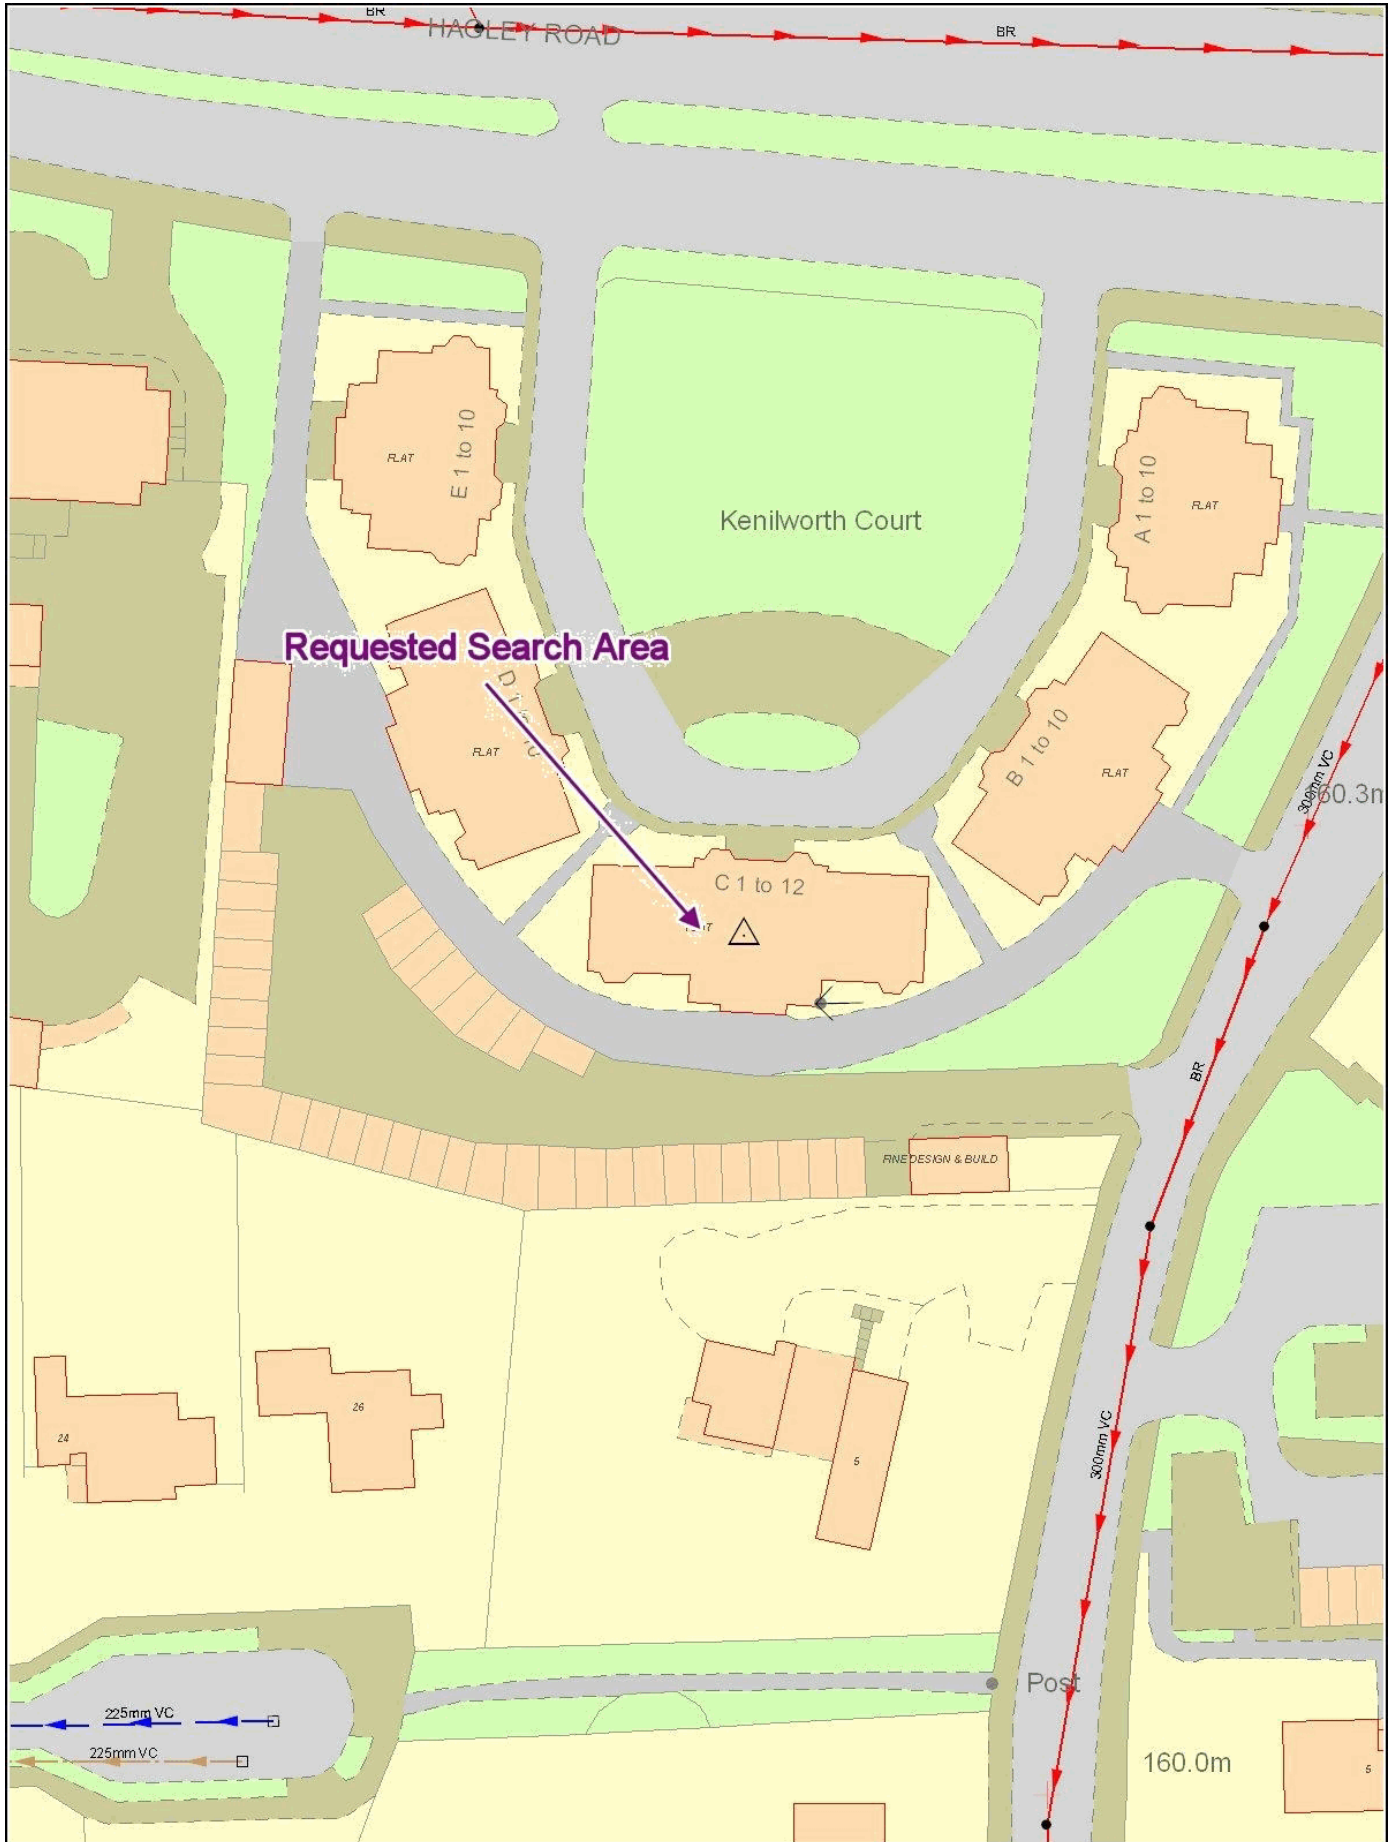

✓ This response represents the typical situation for a residential property.

? The attention of the purchaser is drawn to this response. The purchaser may wish to make further investigations into this situation.

✘ This response represents an uncommon situation for a residential property and the purchaser should carefully consider its implications.

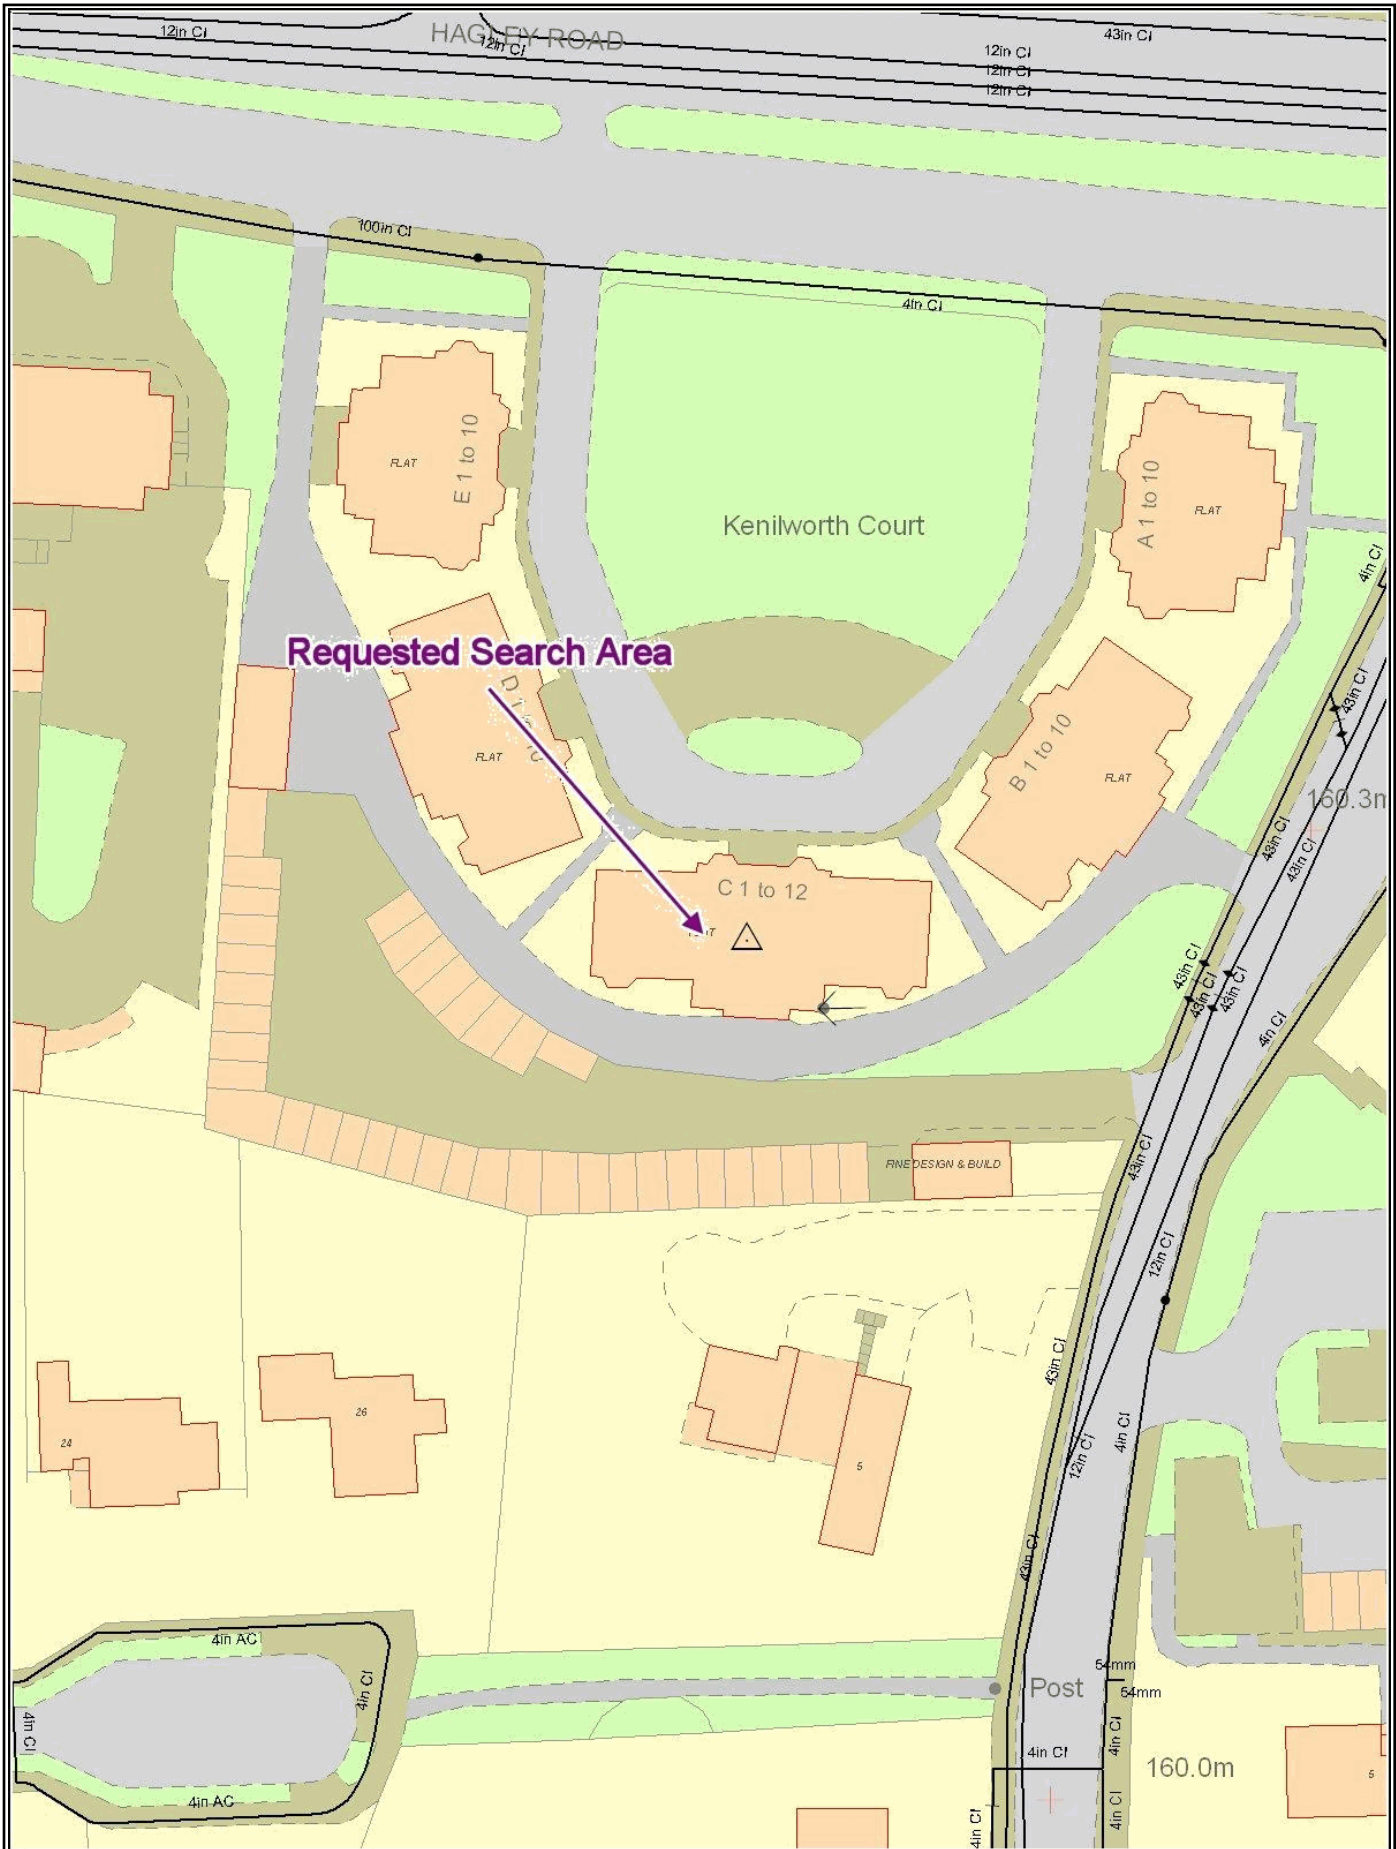

Question	Answer
3 Where relevant, please include a copy of an extract from the public sewer map.	Map Provided ✓
4 Does foul water from the property drain to a public sewer?	Yes ✓
5 Does surface water from the property drain to a public sewer?	Yes ✓
6 Are any sewers or lateral drains serving, or which are proposed to serve the property, the subject of an existing adoption agreement or an application for such an agreement?	No ✓
7 Does the public sewer map indicate any public sewer, disposal main or lateral drain within the boundaries of the property?	No ✓
8 Does the public sewer map indicate any public foul sewer within 30.48 metres (100 feet) of any buildings within the property?	No ?
9 Has a Sewerage Undertaker approved or been consulted about any plans to erect a building or extension on the property over or in the vicinity of a public sewer, disposal main or drain?	No ✓
10 Where relevant, please include a copy of an extract from the map of waterworks.	Map Provided ✓
11 Is any water main or service pipe serving, or which is proposed to serve the property, the subject of an existing adoption agreement or an application for such an agreement?	No ✓
12 Who are the Sewerage and Water Undertakers for the area?	See Answer ✓
13 Is the property connected to mains water supply?	Yes ✓
14 Are there any water mains, resource mains or discharge pipes within the boundaries of the property?	No ✓
15 What is the current basis for charging for sewerage and water services at the property?	Unmeasured ✓
16 Will the basis for charging for sewerage and water services at the property change as a consequence of a change of occupation?	No ✓
17 Is a surface water drainage charge payable?	Yes ✓
18 Please include details of the location of any water meter serving the property.	N/A ✓
19 Who bills the property for sewerage services?	See Details ✓
20 Who bills the property for water services?	See Details ✓
21 Is the dwelling-house which is or forms part of the property at risk of internal flooding due to overloaded public sewers?	No ✓
22 Is the property at risk of receiving low water pressure or flow?	No ✓
23 Please include details of a water quality analysis made by the Water Undertaker for the water supply zone in respect of the most recent calendar year.	See Details ?
24 Please include details of any departures, authorised by the Secretary of State under Part 6 of the 2000 Regulations, from the provisions of Part 3 of those Regulations; or for Wales please include details of any departures, authorised by the Welsh Ministers under Part 6 of the 2001 Regulations, from the provisions of Part 3 of those Regulations.	N/A ✓
25 Please confirm the distance from the property to the nearest boundary of the nearest sewage treatment works.	See Details ✓

Question 3

Q3

Where relevant, please include a copy of an extract from the public sewer map.

Map Provided

A copy of an extract from the public sewer map is included in which the location of the property is identified.

Pipes that are shown on the public sewer map as sewers, disposal mains or lateral drains are defined as those for which a Sewerage Undertaker holds statutory responsibility under the Water Industry Act 1991. A Sewerage Undertaker is not generally responsible for rivers, watercourses, ponds, culverts or highway drains. If any of these are shown on the copy extract they are shown for information only. Sewers or lateral drains indicated on the extract of the public sewer map as being subject to an agreement under Section 104 of the Water Industry Act 1991 are not an 'as constructed' record. It is recommended that these details are checked with the developer, if any. Assets other than public sewers, disposal mains or lateral drains may be shown on the copy extract, for information.

Question 4

Q4

Does foul water from the property drain to a public sewer?

Yes

Records indicate that foul water from the property drains to a public sewer.

The connection status of the property is based on information held on the billing records by the responsible water company. Sewerage Undertakers are not responsible for any private drains and private sewers that connect the property to the public sewerage system, and do not hold details of these. The property owner will normally have sole responsibility for private drains serving the property and may have shared responsibility with other users, if the property is served by a private sewer which also serves other properties. These may pass through land outside of the control of the seller and the buyer may wish to investigate whether separate rights or easements are needed for their inspection, repair or renewal. An extract from the public sewer map is enclosed. This will show known public sewers and lateral drains in the vicinity of the property and it should be possible to estimate the likely length and route of any private drains and/or private sewers connecting the property to the public sewerage system.

Question 5

Q5

Does surface water from the property drain to a public sewer?

Yes

Records indicate that surface water from the property does drain to a public sewer.

The connection status of the property is based on information held on the billing records by the responsible water company. Sewerage Undertakers are not responsible for private drains and private sewers that connect the property to the public sewerage system and do not hold details of these. The property owner will normally have sole responsibility for private drains serving the property and may have shared responsibility with other users, if the property is served by a private sewer which also serves other properties. These may pass through land outside of the control of the seller and the buyer may wish to investigate whether separate rights or easements are needed for their inspection, repair or renewal. In some cases, Sewerage Undertaker records do not distinguish between foul and surface water connections to the public sewerage system. If on inspection the buyer finds that the property is not connected for surface water drainage, the property may be eligible for a rebate of the surface water drainage charge. Details can be obtained from Severn Trent Water. An extract from the public sewer map is enclosed. This will show known public sewers and lateral drains in the vicinity of the property and it should be possible to estimate the likely length and route of any private drains and/or private sewers connecting the property to the public sewerage system.

Question 6

Q6

Are any sewers or lateral drains serving, or which are proposed to serve the property, the subject of an existing adoption agreement or an application for such an agreement?

✓
No

The property is part of an established development and is not subject to an adoption agreement.

Adoption of certain private sewers close to the property may be possible under Section 102 of the Water Industry Act 1991. Please consult Severn Trent Water.

Question 7

Q7

Does the public sewer map indicate any public sewer, disposal main or lateral drain within the boundaries of the property?

✓
No

The public sewer map indicates that there are no public sewers, disposal mains or lateral drains within the boundaries of the property. However, it has not always been a requirement for such public sewers, disposal mains or lateral drains to be recorded on the public sewer map. It is therefore possible for unidentified sewers, disposal mains or lateral drains to exist within the boundaries of the property.

The approximate boundary of the property has been determined by reference to the Ordnance Survey record. The presence of a public sewer, disposal main or lateral drain running within the boundary of the property may restrict further development. The Sewerage Undertaker has a statutory right of access to carry out work on its assets, subject to notice. This may result in employees of the Company or its contractors needing to enter the property to carry out work.

Question 8

Q8

Does the public sewer map indicate any public foul sewer within 30.48 metres (100 feet) of any buildings within the property?

?
No

The public sewer map indicates that there are no public foul sewers within 30.48 metres (100 feet) of a building within the property. However, it has not always been a requirement for such public sewers to be recorded on the public sewer map. It is therefore possible for unidentified sewers or public sewers to exist within the boundaries of the property.

The apparent absence of a public sewer within 100 feet of a building within the property is untypical. It may indicate that the property is connected to the public sewer through a length of private drain and/or private sewer running through third party private land or highway. The owner of the property covered by this HIP Report may have sole or shared liability for these lengths of private drain and/or private sewer up to the point where they connect into a public sewer. It is recommended that further investigation is made into how the property is connected to the public sewerage system.

Question 9

Q9

Has a Sewerage Undertaker approved or been consulted about any plans to erect a building or extension on the property over or in the vicinity of a public sewer, disposal main or drain?

No

There are no records in relation to any approval or consultation about plans to erect a building or extension on the property over or in the vicinity of a public sewer, disposal main or drain. However, the Sewerage Undertaker might not be aware of a building or extension on the property over or in the vicinity of a public sewer, disposal main or drain.

Buildings or extensions erected over a public sewer, disposal main or lateral drain in contravention of building controls or which conflict with the provisions of the Water Industry Act 1991 may have to be removed or altered.

Question 10

Q10

Where relevant, please include a copy of an extract from the map of waterworks.

Map Provided

A copy of an extract from the map of waterworks is included in which the location of the property is identified.

Pipes that are shown on the map of waterworks as water mains, resource mains or discharge pipes are defined as those for which a Water Undertaker holds statutory responsibility under the Water Industry Act 1991. Assets other than water mains, resource mains or discharge pipes may be shown on the plan, for information only. Water Undertakers are not responsible for private water mains or private service pipes connecting the property to the public water main and do not hold details of these. These may pass through land outside of the control of the seller, or may be shared with adjacent properties. The buyer may wish to investigate whether separate rights or easements are needed for their inspection, repair or renewal. The extract of the map of waterworks shows water mains in the vicinity of the property. It should be possible to estimate the likely length and route of any private water supply pipe connecting the property to the public water network.

Question 11

Q11

Is any water main or service pipe serving, or which is proposed to serve the property, the subject of an existing adoption agreement or an application for such an agreement?

No

Records confirm that water mains or service pipes serving the property are not the subject of an existing adoption agreement or an application for such an agreement.

Where the property is part of a very recent or ongoing development and the water mains and service pipes are not the subject of an adoption application, buyers should consult with the developer to confirm that the Water Undertaker will be asked to provide a water supply to the development or to ascertain the extent of any private water supply system for which they will hold maintenance and renewal liabilities.

Question 12

Q12

Who are the Sewerage and Water Undertakers for the area?

The Sewerage Undertakers for the area are:

Severn Trent Water
Sherbourne House
St Martins Road
Coventry
CV3 6SD

Tel: 0845 7500 500 For Billing Enquiries only
Tel: 0845 7090 646 For Metering Enquiries only
Tel: 0115 962 7269 For Search Enquiries only

<http://www.stwater.co.uk>

The Water Undertakers for the area are:

Severn Trent Water
Sherbourne House
St Martins Road
Coventry
CV3 6SD

Tel: 0845 7500 500 For Billing Enquiries only
Tel: 0845 7090 646 For Metering Enquiries only
Tel: 0115 962 7269 For Search Enquiries only

<http://www.stwater.co.uk>

See Answer

Question 13

Q13

Is the property connected to mains water supply?

Records indicate that the property is connected to mains water supply.

Yes

Question 14

Q14

Are there any water mains, resource mains or discharge pipes within the boundaries of the property?

No

The map of waterworks does not indicate any water mains, resource mains or discharge pipes within the boundaries of the property.

The approximate boundary of the property has been determined by reference to the Ordnance Survey record. The presence of a public water main, resource main or discharge pipe within the boundary of the property may restrict further development within it. Water Undertakers have a statutory right of access to carry out work on their assets, subject to notice. This may result in employees of the Company or its contractors needing to enter the property to carry out work.

Question 15

Q15

What is the current basis for charging for sewerage and water services at the property?

Unmeasured

The charges are based on the rateable value of the property of 447.00 and the charge for the current financial year is £726.06.

Water and Sewerage Companies full charges are set out in their charges schemes which are available from the Company free of charge upon request. The Company may install a meter at the premises where a buyer makes a change of use of the property or where the buyer uses water for watering the garden, other by hand (this includes the use of sprinklers) or automatically replenishing a pond or swimming pool with a capacity greater than 10,000 litres.

Question 16

Q16

Will the basis for charging for sewerage and water services at the property change as a consequence of a change of occupation?

No

There will be no change in the current charging arrangements as a consequence of a change of occupation.

Water and Sewerage Companies full charges are set out in their charges schemes which are available from the Company free of charge upon request. The Company may install a meter at the premises where a buyer makes a change of use of the property or where the buyer uses water for watering the garden, other than by hand (this includes the use of sprinklers) or automatically replenishing a pond or swimming pool with a capacity greater than 10,000 litres.

Question 17

Q17

Is a surface water drainage charge payable?

Records confirm that a surface water drainage charge is payable for the property of £134.10 for the current financial year.

Yes

Where surface water charges are payable but upon inspection the property owner believes that surface water does not drain to the public sewerage system, application can be made to the Water Company to end surface water charges.

Question 18

Q18

Please include details of the location of any water meter serving the property.

Records indicate that the property is not served by a water meter. Where the property is not served by a meter and the customer wishes to consider this method of charging they should contact:

N/A

Severn Trent Water
Sherbourne House
St Martins Road
Coventry
CV3 6SD

Tel: 0845 7500 500 For Billing Enquiries only
Tel: 0845 7090 646 For Metering Enquiries only

Question 19

Q19

Who bills the property for sewerage services?

Severn Trent Water
Sherbourne House
St Martins Road
Coventry
CV3 6SD

Tel: 0845 7500 500 For Billing Enquiries only
Tel: 0845 7090 646 For Metering Enquiries only
Tel: 0115 962 7269 For Search Enquiries only

<http://www.stwater.co.uk>

If your property was built after April 1989 you will be paying for water services on a measured basis. Householders that opted, at their present address, for a meter before 1 April 1996 can revert to paying by rateable value provided that the property still has a valid rateable value. Householders that opted, at their present address, for a meter after 1 April 2000 can revert to paying by rateable value at any time prior to the twelve month anniversary of the meter having been installed or 30 days after receipt of a second measured bill, provided that the property still has a valid rateable value. Properties that have a swimming pool or use an automatic garden watering device (i.e. a hosepipe not held in the hand) must be metered. Household measured bills are sent half yearly. All non-households are required to be metered.

See Details

Question 20

Q20

Who bills the property for water services?

Severn Trent Water

All non-households are required to be metered.

See Details

Question 21

Q21

Is the dwelling-house which is or forms part of the property at risk of internal flooding due to overloaded public sewers?

No

The property is not recorded as being at risk of internal flooding due to overloaded public sewers.

A sewer is 'overloaded' when the flow from a storm is unable to pass through it due to a permanent problem (e.g. flat gradient, small diameter). Flooding as a result of temporary problems such as blockages, siltation, collapses and equipment or operational failures are excluded. 'Internal flooding' from public sewers is defined as flooding which enters a building or passes below a suspended floor. For reporting purposes, buildings are restricted to those normally occupied and used for residential, public, commercial, business or industrial purposes. 'At Risk' properties are those that the Sewerage Undertaker is required to include in the Regulatory Register that is reported annually to the Water Services Regulation Authority. These are defined as properties that have suffered or are likely to suffer internal flooding from public foul, combined or surface water sewers due to overloading of the sewerage system more frequently than the relevant reference period (either once or twice in ten years) as determined by the Sewerage Undertaker's reporting procedure. Flooding as a result of storm events proven to be exceptional and beyond the reference period of one in ten years are not included on the 'At Risk' register.

Question 22

Q22

Is the property at risk of receiving low water pressure or flow?

No

Records confirm that the property is not recorded on a register kept by the Water Undertaker as being at risk of receiving low water pressure or flow.

'Low water pressure' means water pressure below the regulatory reference level which is the minimum pressure when demand on the system is not abnormal. Water Undertakers are required to include in the Regulatory Register that is reported annually to the Water Services Regulation Authority properties receiving pressure below the reference level, provided that allowable exclusions do not apply (i.e. events which can cause pressure to temporarily fall below the reference level). Water Companies are required to include in the Regulatory Register that is reported annually to the Director General of Water Services properties receiving pressure below the reference level, provided that allowable exclusions do not apply (i.e. events which can cause pressure to temporarily fall below the reference level). The reference level of service is a flow of 9 litres/minute at a pressure of 10 metres head on the customer's side of the main stop tap (mst). The reference level of service must be applied on the customer's side of a meter or any other company fittings that are on the customer's side of the main stop tap. The reference level applies to a single property. Where more than one property is served by a common service pipe, the flow assumed in the reference level must be appropriately increased to take account of the total number of properties served. For two properties, a flow of 18 litres/minute at a pressure of 10 metres head on the customer's side of the mst is appropriate. For three or more properties the appropriate flow should be calculated from the standard loadings provided in BS6700 or Institute of Plumbing handbook. Allowable exclusions: The Company is required to include in the Regulatory Register properties receiving pressure below the reference level, provided that allowable exclusions listed below do not apply. Abnormal demand: This exclusion is intended to cover abnormal peaks in demand and not the daily, weekly or monthly peaks in demand which are normally expected. Companies should exclude from the reported DG2 figures properties which are affected by low pressure only on those days with the highest peak demands. During the report year Companies may exclude, for each property, up to five days of low pressure caused by peak demand. Planned maintenance: Companies should not report under DG2 low pressures caused by planned maintenance. It is not intended that Companies identify the number of properties affected in each instance. However, Companies must maintain sufficiently accurate records to verify that low pressure incidents that are excluded from DG2 because of planned maintenance are actually caused by maintenance. One-off incidents: This exclusion covers a number of causes of low pressure, mains bursts, failures of Company equipment (such as PRVs or booster pumps), firefighting and action by a third party. However, if problems of this type affect a property frequently, they cannot be classed as one-off events and further investigation will be required before they can be excluded.

Question 23

Q23

Please include details of a water quality analysis made by the Water Undertaker for the water supply zone in respect of the most recent calendar year.

See Details

The analysis records confirmed that tests failed to meet the standards of the 2000 Regulations or the 2001 Regulations in relation to another substance or substances, and these are: A sample failed the Coliform Bacteria limit on 14/03/2007. Result = 1 per 100ml. We have been unable to establish the cause of this exceedance. All investigational resamples following this exceedance were satisfactory. A sample failed the pH limit on 28/08/2007. Result = 9.7. We have been unable to establish the cause of this exceedance. All investigational resamples following this exceedance were satisfactory.

IMPORTANT - Please note the response to this question provides information about the water supply zone within which the property is situated and NOT the individual property shown above. Water companies are responsible for ensuring that the water provided is wholesome and is safe to drink. The quality of drinking water is monitored throughout the various stages of treatment and distribution. This includes source water abstractions, reservoirs and aquifers; the treatment process and finished treated water; the distribution system; and finally water at customers taps. The standards which must be complied with are some of the tightest in the world. They incorporate standards from the European Drinking Water Directive and UK Legislation (National Standards). These standards are used to monitor compliance against microbiological and chemical standards, including aesthetic standards such as colour, clarity and taste. Thousands of sample tests are carried out in a year. Sampling is carried out at randomly selected customer properties usually at the cold water tap in the kitchen. On rare occasions where a standard is not met an immediate investigation is carried out and remedial actions initiated as necessary. This includes consultation with Public Health Doctors and Environmental Health teams. The majority of these cases are minor or temporary in nature and are often associated with the condition or maintenance of the plumbing with an individual property. Customers are normally advised by letter of any specific individual property issues and a copy would be available from the vendor, if applicable. For further information on water quality information for a postcode, and facts leaflets on water quality, please contact the responsible water company. The primary responsibility for enforcing the standards and regulations lies with the Drinking Water Inspectorate (DWI). They independently assess the performance of all water companies and undertake technical audits of procedures and assets. They also produce an annual independent report summarising the performance of the water company.

Question 24

Q24

Please include details of any departures, authorised by the Secretary of State under Part 6 of the 2000 Regulations, from the provisions of Part 3 of those Regulations; or for Wales please include details of any departures, authorised by the Welsh Ministers under Part 6 of the 2001 Regulations, from the provisions of Part 3 of those Regulations.

N/A

There are no such authorised departures for the water supply zone.

Authorised departures are not permitted if the extent of the departure from the standard is likely to constitute a potential danger to human health. Please contact your Water Company if you require further information.

Question 25

Q25

Please confirm the distance from the property to the nearest boundary of the nearest sewage treatment works.

See Details

The nearest sewage treatment works is 6.875 KM to the West of the property. The name of the nearest sewage treatment works is Station Road .

The nearest sewage treatment works will not always be the sewage treatment works serving the catchments within which the property is situated. The Sewerage Undertaker's records were inspected to determine the nearest sewage treatment works. It should be noted therefore that there may be private sewage treatment works closer than the one detailed above that have not been identified.

Appendix 1

Terms and Expressions in this Report

'the 1991 Act' means the Water Industry Act 1991[61];

'the 2000 Regulations' means the Water Supply (Water Quality) Regulations 2000[62];

'the 2001 Regulations' means the Water Supply (Water Quality) Regulations 2001[63];

'adoption agreement' means an agreement made or to be made under Section 51A(1) or 104(1) of the 1991 Act[64];

'bond' means a surety granted by a developer who is a party to an adoption agreement;

'bond waiver' means an agreement with a developer for the provision of a form of financial security as a substitute for a bond;

'calendar year' means the twelve months ending 31st December;

'discharge pipe' means a pipe which discharges are made or are to be made under Section 165(1) of the 1991 Act;

'disposal main' means (subject to section 219(2) of the 1991 Act) any outfall pipe or other pipe which - (a) is a pipe for the conveyance of effluent to or from any sewage disposal works, whether of a Sewerage Undertaker or of any other person; and (b) is not a public sewer;

'drain' means (subject to Section 219(2) of the 1991 Act) a drain used for the drainage of one building or of any buildings or yards appurtenant to buildings within the same curtilage;

'effluent' means any liquid, including particles of matter and other substance in suspension in the liquid;

'financial year' means the twelve months ending with 31st March;

'lateral drain' means - (a) that part of a drain which runs from the curtilage of a building (or buildings or yards within the same curtilage) to the sewer with which the drain communicates or is to communicate; or (b) (if different and the context so requires) the part of a drain identified in a declaration of vesting made under Section 102 of the 1991 Act or in an agreement made under Section 104 of that Act[65];

'licensed water supplier' means a company which is the holder for the time being of a water supply license under Section 17A(1) of the 1991 Act[66];

'maintenance period' means the period so specified in an adoption agreement as a period of time - (a) from the date of issue of a certificate by a Sewerage Undertaker to the effect that a developer has built (or substantially built) a private sewer or lateral drain to that Undertakers satisfaction; and (b) until the date that private sewer or lateral drain is vested in the Sewerage Undertaker;

'map of waterworks' means the map made available under Section 198(3) of the 1991 Act[67] in relation to the information specified in subsection (1A);

'private sewer' means a pipe or pipes which drain foul or surface water, or both, from premises, and are not vested in a Sewerage Undertaker;

'public sewer' means, subject to Section 106(1A) of the 1991 Act[68], a sewer for the time being vested in a Sewerage Undertaker in its capacity as such, whether vested in that Undertaker - (a) by virtue of a scheme under Schedule 2 to the Water Act 1989[69]; (b) by virtue of a scheme under Schedule 2 to the 1991 Act[70]; (c) under Section 179 of the 1991 Act[71]; or (d) otherwise;

'public sewer map' means the map made available under Section 199(5) of the 1991 Act[72];

'resource main' means (subject to Section 219(2) of the 1991 Act) any pipe, not being a trunk main, which is or is to be used for the purpose of - (a) conveying water from one source of supply to another, from a source of supply to a regulating reservoir or from a regulating reservoir to a source of supply; or (b) giving or taking a supply of water in bulk;

'sewerage services' includes the collection and disposal of foul and surface water and any other services which are required to be provided by a Sewerage Undertaker for the purpose of carrying out its functions;

'Sewerage Undertaker' means the company appointed to be the Sewerage Undertaker under Section 6(1) of the 1991 Act for the area in which the property is or will be situated;

'surface water' includes water from roofs and other impermeable surfaces within the curtilage of the property;

'water main' means (subject to Section 219(2) of the 1991 Act) any pipe, not being a pipe for the time being vested in a person other than the Water Undertaker, which is used or to be used by a Water Undertaker or licensed water supplier for the purpose of making a general supply of water available to customers or potential customers of the Undertaker or supplier, as distinct from for the purpose of providing a supply to particular customers;

'water meter' means any apparatus for measuring or showing the volume of water supplied to, or of effluent discharged from any premises;

'water supplier' means the company supplying water in the water supply zone, whether a Water Undertaker or licensed water supplier;

'water supply zone' means the names and areas designated by a Water Undertaker within its area of supply that are to be its water supply zones for that year; and

'Water Undertaker' means the company appointed to be the Water Undertaker under Section 6(1) of the 1991 Act for the area in which the property is or will be situated.

In this Report, references to a pipe, including references to a main, a drain or a sewer, shall include references to a tunnel or conduit which serves or is to serve as the pipe in question and to any accessories for the pipe.

The Law Society endorses the use of a residential drainage and water enquiry on all occasions where a property is being sold. With their unique knowledge of the water industry, the regional water companies of England & Wales are best placed to identify any risks relating to the location and ownership of public water mains and sewers before property purchases are completed.

We do accept that on occasions, customers may not be happy and seek clarification or confirmation that our records are correct. For such instances, the Water UK CON29DW group has developed a unified approach in dealing with customer enquiries and complaints, offering customers a set of minimum standards that would apply. These are listed below.

Water UK: Residential Drainage and Water Search Complaint Procedure

As a minimum standard Severn Trent Searches, PO Box 6187, Nottingham, NG5 1LE.

We will endeavour to resolve any telephone contact or complaint at the time of the call, however, if that isn't possible, we will advise you on how soon we can respond. If you are not happy with our initial response, we will advise you to write in via email, fax or letter explaining the reasons why you are not satisfied.

We will investigate and research the matter in detail and provide a written response within 5 working days of receipt of your complaint.

Depending on the scale of investigation required, we will keep you informed of the progress and update you with new timescales if necessary.

If we fail to give you a written substantive response within 5 working days, Severn Trent Searches will compensate you the original fee paid for the CON29DW Drainage and Water enquiry regardless of the outcome of your complaint.

If we find your complaint to be justified, or we have made any errors that change the outcome in your search result, we will automatically refund your search fee. We will provide you with a revised search and also undertake the necessary action, as within our control, to put things right as soon as practically possible. Customers will be kept informed of the progress of any action required.

If your search takes us longer than 10 working days to complete and we have not communicated the reasons for the delay, you will receive the search free of charge.

A complaint will normally be dealt with fully within 4 weeks of the date of its receipt. If there are valid reasons for the consideration taking longer, you will be kept fully informed in writing or via telephone or email as you prefer and receive a response at the very latest within 8 weeks.

If you are still not satisfied with our response or action, we will refer the matter to a Senior Manager/ Company Director for resolution. At your request we will liaise with counselling organisations on your behalf.

If you are not satisfied with the final decision, you may refer the complaint to the Independent Property Codes Adjudication Scheme (IPCAS), contact details below. We will co-operate fully with the independent adjudicator during the consideration of a complaint by the IPCAS and comply with any decision.

Complaints should be sent to:

DRAINAGE & WATER ENQUIRY (DOMESTIC) TERMS AND CONDITIONS

The Customer the Client and the Purchaser are asked to note these terms, which govern the basis on which this drainage and water report is supplied.

Definitions

"The Company" means the water service company or their data service provider producing the Report.

"Order" means any request completed by the Customer requesting the Report.

"Report" means the drainage and/ or water report prepared by The Company in respect of the Property.

"Property" means the address or location supplied by the Customer in the Order.

"Customer" means the person, company, firm or other legal body placing the Order, either on their own behalf as Client, or, as an agent for a Client.

"Client" means the person, company or body who is the intended recipient of the Report with an actual or potential interest in the Property.

"Purchaser" means the actual or potential purchaser of an interest in the Property including their mortgage lender.

"the Regulations" means the Home Information Pack (No.2) Regulations 2007.

Agreement

1.1 The Company agrees to supply the Report to the Customer and to allow it to be provided to the Client and the Purchaser subject in each case, to these terms. The scope and limitations of the Report are described in paragraph 2 of these terms. The Customer shall be responsible for bringing these terms to the attention of the Client and the Purchaser as necessary.

1.2 The Customer the Client and the Purchaser agree that the placing of an Order for a Report and the subsequent provision of a copy of the Report to the Purchaser indicates their acceptance of these terms.

The Report

2. Whilst The Company will use reasonable care and skill in producing the Report, it is provided to the Customer the Client and the Purchaser on the basis that they acknowledge and agree to the following:-

2.1 The information contained in the Report can change on a regular basis so The Company cannot be responsible to the Customer the Client and the Purchaser for any change in the information contained in the Report after the date on which the Report was produced and sent to the Customer.

2.2 The Report does not give details about the actual state or condition of the Property nor should it be used or taken to indicate or exclude actual suitability or unsuitability of the Property for any particular purpose, or relied upon for determining saleability or value, or used as a substitute for any physical investigation or inspection. Further advice and information from appropriate experts and professionals should always be obtained.

2.3 The information contained in the Report is based upon the accuracy of the address supplied to The Company.

2.4 The Report provides information as to the location and connection of existing services and other information required to comply with the provisions of the Home Information Pack Regulations in relation to drainage and water enquiries and should not be relied on for any other purpose. The Report may contain opinions or general advice to the Customer the Client and the Purchaser which The Company cannot ensure is accurate, complete or valid and for which it accepts no liability.

2.5 The position and depth of apparatus shown on any maps attached to the Report are approximate, and are furnished as a general guide only, and no warranty as to their correctness is given or implied. The exact positions and depths should be obtained by excavation trial holes and the maps must not be relied on in the event of excavation or other works made in the vicinity of The Company's apparatus.

Liability

3.1 The Company shall not be liable to the Customer the Client or the Purchaser for any failure defect or non-performance of its obligations arising from any failure of or defect in any machine, processing system or transmission link or anything beyond The Company's reasonable control or the acts or omissions of any party for whom The Company is not responsible.

3.2 Where a report is requested for an address falling within a geographical area where two different Companies separately provide Water and Sewerage Services, then it shall be deemed that liability for the information given by either Company will remain with that Company in respect of the accuracy of the information supplied. A Company that supplies information which has been provided to it by another Company for the purposes outlined in this agreement will therefore not be liable in any way for the accuracy of that information and will supply that information as agent for the Company from which the information was obtained.

3.3 The Report is produced only for use in relation to individual domestic property transactions which require the provision of drainage and water information pursuant to the provisions of the Regulations and cannot be used for commercial developments of domestic properties or commercial properties for intended occupation by third parties.

3.4 The Company shall accept liability for death or personal injury arising from its negligence but in any other case the Company's liability for negligence shall be in accordance with the permitted limit for liability identified in Schedule 6 paragraph 8 of the Regulations. In accordance with Schedule 6 paragraph 7 of the Regulations such liability will be met by The Company or its insurers and The Company has and will maintain an appropriate contract of insurance.

Copyright and Confidentiality

4.1 The Customer the Client and the Purchaser acknowledge that the Report is confidential and is intended for the personal use of the Client and the Purchaser. The copyright and any other intellectual property rights in the Report shall remain the property of The Company. No intellectual or other property rights are transferred or licensed to the Customer the Client or the Purchaser except expressly provided.

4.2 The Customer or Client is entitled to make copies of the Report but may only copy the maps contained in the, or attached to the Report, if they have an appropriate Ordnance Survey licence.

4.3 The Customer the Client and the Purchaser agree (in respect of both the original and any copies made) to respect and not to alter any trademark, copyright notice or other property marking which appears on the Report.

4.4 The maps contained in the Report are protected by Crown Copyright and must not be used for any purpose outside the context of the Report.

4.5 The Customer and the Client and the Purchaser agree on a joint and several basis to indemnify The Company against any losses, costs, claims and damage suffered by The Company as a result of any breach by any of them of the terms of paragraphs 4.1 to 4.4 inclusive.

Payment

5. Unless otherwise stated all prices are inclusive of VAT. The Customer shall pay for the price of the Report specified by The Company, without any set off, deduction or counterclaim. Unless the Customer has an account with The Company for payment for Reports, The Company must receive payment for Reports in full before the Report is produced. For Customers with accounts, payment terms will be as agreed with The Company.

General

6.1 If any provision of these terms is or becomes invalid or unenforceable, it will be taken to be removed from the rest of these terms to the extent that it is invalid or unenforceable. No other provision of these terms shall be affected.

6.2 These terms shall be governed by English law and all parties submit to the exclusive jurisdiction of the English courts.

6.3 Nothing in this notice shall in any way restrict the Customer the Clients or the Purchasers statutory or any other rights of access to the information contained in the Report.

6.4 The Report is supplied subject to these terms and conditions which include the terms required by Schedule 6 paragraphs 5, 6 and 7 of the Regulations.

6.5 These terms and conditions may be enforced by the Customer the Client and the Purchaser.
